### Terms of Verification Body (VB) License Fee

1. VB shall pay a VB annual license fee per calendar year to GLOBALG.A.P. as defined in table 2 for the admission to the SAI Platform System. The VB annual license fee is payable by the VB after the evaluation and approval process is finalized and for each consecutive year. The fee shall be paid before the VB can sign a contract with GLOBALG.A.P. Subsequent fees are payable after receiving the annual invoice for the respective calendar year issued at the beginning of the year.
2. GLOBALG.A.P. will charge € 1,000 to the VB to initiate the approval process and complete the evaluation (VB evaluation fee). It will be deducted from the first (total) annual VB license fee and will not be refunded in case of unsuccessful evaluation.
3. The 5 free-of-charge LoAs are calculated based on the number of LoA as of 31 December of the same calendar year. These LoAs are offset to total LoAs, which are issued in the same calendar year. In case there are less than 5 LoAs issued, the remaining amount expires, cannot be transferred to the next year, and is not paid out.
